Journal - Office of Legislative Counsel
Monday - 29 July 1963

Page 2

5. (Unclassified - GLC) Dick Hines, House Space Committee staff called and said that Representative Teague had asked whether our "configuration chart" could be made available in unclassified form and whether the figures used in William Patterson's article on Soviet boosters eq ate with our figures. Patterson's article appeared in the November 1962 issue of the magazine "Space Aeronautics." [redacted] is checking on this. STAT

6. (Unclassified - GLC) Talked with Deb Michaels, House Appropriations Subcommittee staff, with respect to the Subcommittee's letter authorizing appropriations "during July" as authorized by congressional resolution. I queried Michaels as to whether it would be necessary for the Agency to receive a similar authorization for the month of August or whether he interpreted the letter to make the matter controlling under the resolution. Michaels said he was not certain on this himself and would check on it and be in touch with us by close of business 31 July.

Michaels mentioned that he had seen statements on two U.S. rockets in the "Missiles and Rockets" issue of 29 July containing the 7th Annual World Missile/Space Encyclopedia. He said the items which concerned him appeared on page 55. Later in the day, [redacted] indicated that the information which Michaels referred to had been previously contained in other open publications and was not considered to be a matter of great concern. STAT

7. (Internal Use Only - GLC) [redacted] requested assistance in the preparation of a reply to Senator Neuberger in furtherance of correspondence directed to him as Executive Officer of SSU, concerning a claim of an OSS man for "hazardous duty pay." A suitable answer was prepared. STAT

8. (Unclassified - GLC) Late in the day, I learned that the Director had discussed with Senator Pastore the desirability of the Director getting together with the Joint Committee on Atomic Energy but acknowledged that both of their schedules made this practically impossible. At Mr. Elder's request, I made a call to the Committee staff. In the absence of James Conway, I talked with Commander Bauser advising him of the conversation between the Director and the Chairman. I indicated that the only possible time the Director could meet with the Chairman would be on Thursday morning and added that I could not even make a flat commitment for then. Bauser planned to talk with Conway later in the evening and said he would take the matter up with him at that time.
